Original File 11.1.21-Patricia Madison.txt  
**Min-U-Script® with Word Index**

1           Q     And let me show you what has been  
2 previously marked as Plaintiff's Exhibit P-32. Just  
3 for your reference, Nurse Madison, P-32 is the last  
4 several pages of the manual in the attached section  
5 called User's Guide that begins on page 449, and  
6 I've copied to put up on the screen Pages 449  
7 through 461 of that User's Guide portion of the  
8 book.

9                             Do you see that?

10          A     Yes.

11          Q     Now, this record, are you familiar with  
12 any -- with whether or not scrotal pain or scrotal  
13 swelling in a young boy is an emergency?

14          A     Yes.

15          Q     And is it an emergency?

16          A     Yes.

17          Q     And why is it an emergency?

18          A     Because the child could possibly lose a  
19 testicle if not seen immediate -- you have to get it  
20 immediate attention.

21          Q     And does that mean that if a child -- if a  
22 family reports with scrotal pain or swelling that  
23 it's the responsibility of the nurse triager to  
24 immediately -- to direct them to proceed immediately
